PROFILE

Frontend Developer and founder of DevrexDigital with 2+ years building fast, responsive web applications using Next.js, React, TypeScript, and Tailwind CSS. Delivered 40+ production websites, including e-commerce storefronts, business and management systems, and portfolio sites, with clean UI and strong performance. Experienced owning projects end-to-end: component architecture, Supabase integration, and deployment on Vercel.

TECHNICAL SKILLS

Languages & Frameworks: Next.js, React.js, JavaScript (ES6+), TypeScript, HTML5, CSS3

Backend & Tools: Supabase, REST APIs, Git & GitHub, Vercel

Styling & UI: Tailwind CSS, Responsive / Mobile-First Design, GSAP Animations

Professional: Client Communication, Project Management, Problem Solving

WORK EXPERIENCE

Founder & Frontend Developer

Jan 2023 – Present

DevrexDigital, Web Development Agency

- Founded and run a web development agency, delivering 40+ production websites for startups and small businesses.
- Built responsive e-commerce storefronts with product listings, category pages, cart, and checkout flows using Next.js and Tailwind CSS.
- Integrated Supabase for authentication, databases, and dynamic content management.
- Developed business and management systems, including dashboards and admin interfaces, in React and TypeScript.
- Built reusable component libraries to speed up new project builds and maintain design consistency.
- Implemented pixel-perfect, mobile-first layouts across mobile, tablet, and desktop.
- Optimized performance through image optimization, lazy loading, and code splitting.
- Deployed and maintained projects on Vercel, managing the full client lifecycle from requirements to post-launch support.
